Recommendation for the real estate services of Edward Brinkman

We decided to buy in Honolulu when our daughter's apartment was being sold; choosing to get someplace where she could live and we could stay frequently. Eddie took up the cause like it was for his own kid. Despite a 5 hour time difference he was available anytime for our questions about listings or the closing process. He seemed to have insight into every building we asked about, and knew quirks of different buildings' layouts and construction that made it easier for us to get a feel for a condo before our daughter went to see it. He made us feel comfortable that she was critically comparing characteristics of all the places they went. During the offer and closing process he was relentless in keeping sellers' agent and the lender on track. We felt he was actually educating that agent about relevant details. He facilitated a very short timeline to avoid another apartment rental - 32 days from contacting him to keys in hand!

We would call him again in an instant and will recommend him anytime. We'd be happy to discuss details if you request our contact info from Eddie.
